EUROBENCH SUMMIT

21-22 June 2022 | Madrid, Spain

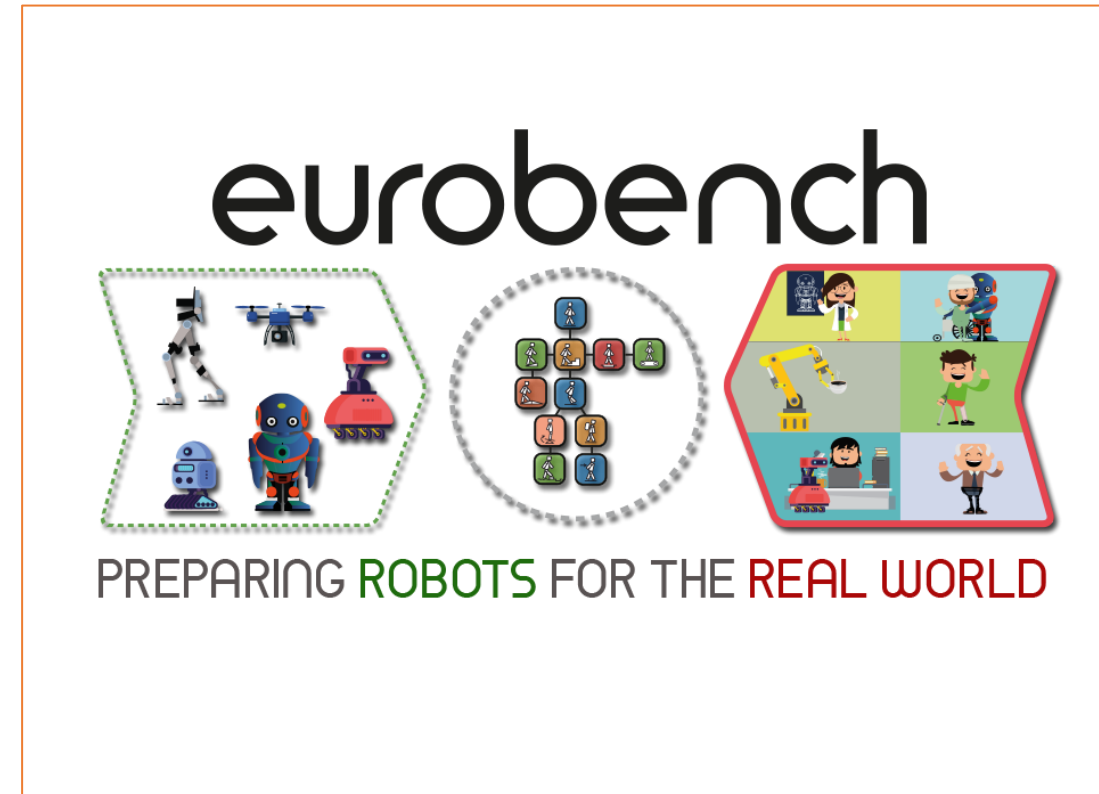

EUROBENCH SUMMIT

The EU-funded **EUROBENCH** project is working to create **the first benchmarking framework for robotic systems in Europe**, with the aim of enabling companies and researchers to test the performance of robots at any stage of development.

To create this benchmarking framework, the EUROBENCH consortium has organised two open calls to fund projects for the development and validation of facilities through the Financial Support to Third Parties (FSTP) procedure. Thanks to the collaboration of the funded entities, EUROBENCH has developed:

- **Two Testing Facilities**, one for **wearable robots** (located in the Hospital Los Madroños, in Brunete, Spain) and the other for humanoid robots (located in the Istituto Italiano di Tecnologia, in Genova, Italy), to allow perform standardized tests on robotic prototypes in a unique location, saving resources and time.
- **A unified Benchmarking Software**, which includes: 1) common protocols to execute standardized tests in any lab setting, 2) computational tools to compute performance scores according to quantitative Performance Indicators, and 3) a unified database to compare the performance results with other systems.

This final event aims to **bring together all the entities that have participated in the development of EUROBENCH**. All companies and researchers in the field of robotics are also welcome! It is **an essential meeting for robotics benchmarking in Europe**.

EUROBENCH SUMMIT

3 REASONS TO ATTEND

Expert Insight

- 17 talks by experts in robotics and benchmarking and 2 Plenary talks
- Demonstrations in the facilities, guided by the testbed developers
- Scientific committee

Wearable & Humanoids Facilities

Get to know EUROBENCH's facilities for Wearable Robots and Humanoids first-hand, and also learn about the Benchmarking software accessible in the cloud.

Meaningful Networking

The Agenda is designed to facilitate networking and provide attendees with the opportunity to make connections that can become important contacts for the growth of their business.

SPONSORSHIP

PLATINUM SPONSOR - 8.000€

- 2 EUROBENCH SUMMIT Pass
- Opportunity to speak at conference
- Logo in the streaming (indicating Platinum Sponsorship)
- Stand (big sized)
- Spotlight demo (demo in exhibit area to all attendees)
- Online & onsite branding recognition (including website & print program)
- Opportunity to provide marketing materials for inclusion in conference merchandising

SPONSORSHIP

GOLD SPONSOR - 6.000€

- 2 EUROBENCH SUMMIT Pass
- Stand (medium sized)
- Spotlight demo (demo in exhibit area to all attendees)
- Online & onsite branding recognition (including website & print program)
- Opportunity to provide marketing materials for inclusion in conference merchandising

SPONSORSHIP

SILVER SPONSOR - 3.000€

- 1 EUROBENCH SUMMIT Pass
- Stand (small sized)
- Online & onsite branding recognition (including website & print program)
- Opportunity to provide marketing materials for inclusion in conference merchandising

SPONSORSHIP

BRONZE SPONSOR - 1.000€

- Online & onsite branding recognition (including website & print program)
- Opportunity to provide marketing materials for inclusion in conference merchandising
