

INBOTS

Inclusive Robotics for a better Society

Deliverable Title	D6.3 1st documentary video on interactive robotics and impacts
Deliverable Lead:	AGENCIA ESTATAL CONSEJO SUPERIOR DE INVESTIGACIONES CIENTIFICAS (CSIC)
Related Work Package:	WP6: Promote societal and socio-economic uptake of robotics
Related Task:	T6.3 Develop specific actions to bring robotics closer to the public and to build a future robotics society
Author(s):	Pilar Raya, Patricia Rodríguez, Jaime Lara, María Prieto
Dissemination Level:	Public
Due Submission Date:	31/12/2019
Actual Submission:	22/02/2019
Project Number	780073
Instrument:	Coordinate and Support Action
Start Date of Project:	01.01.2018
Duration:	36 months
Abstract	INBOTS first video for public awareness, describing the current constraints and challenges in the field of interactive robotics.

1. Executive Summary

The aim of INBOTS 1st documentary video is to present the current constraints and challenges in the field of Interactive Robotics.

The video aims to ensure the visibility of the project by the general public.

2. Description of work & main achievements

INBOTS 1st documentary video presents INBOTS aims, the organisations participating in the project and the areas of expertise addressed by the project. The video was recorded in Pisa during the 1st INBOTS Conference, 2018 October 16th-18th) with the support of CSIC Communication Department.

For this, the video includes a number of short interviews with the Project Coordinator and the Work Package Leaders. Also, the invited speakers that participated in the 1st INBOTS Conference give their feedback and impressions in their field of expertise.

The video provides an overall vision of the current state of the art of interactive robotics, emphasising the areas where INBOTS will contribute to link the gap between academia, regulators, entrepreneurs and end-users, among others. In order to increase the impact of the video and facilitate its dissemination, a plain language is used and two versions (with or without subtitles) have been created.

The video is published in INBOTS social media profiles (YouTube, LinkedIn, etc.):

<https://www.youtube.com/watch?v=XcwhUr2vNbM>

<https://www.linkedin.com/company/inbots-csa/?originalSubdomain=es>

3. Deviations from the workplan

INBOTS 1st documentary video has been developed from M6 to M14 and an initial version was displayed in INBOTS annual meeting (Reikjavik, 2019 January 14th-15th).

The delay in the final version was due to the need to achieve a final version agreed by all partners as well as by the invited speakers participating in the video.
